

## SUMMARY

Aspiring Frontend Developer with a strong foundation in HTML, CSS, and JavaScript, gained through hands-on practiced in building responsive and user-friendly web pages. Currently pursuing a Fullstack Development course. Passionate about creating interactive web experiences and eager to expand knowledge in modern web technologies. Looking to contribute to innovative web development projects while enhancing my technical skills.

## EDUCATION

### Periyar University

- Bachelor of Science in Computer Science
- GPA: 7.45

## SKILLS

### Frontend Development

- Languages & Frameworks: HTML5, CSS3, JavaScript
- Libraries & Tools: ReactJS, Bootstrap

### Programming Basics

- Python (Basic)
- C Programming (Basic)

## COURSES

### FullStack Web Developer(Python) Aug-2024-present

- Currently pursuing a Python Fullstack Development course at Edex Tech, Coimbatore, focusing on front-end technologies like HTML, CSS, JavaScript, Bootstrap, and C programming.
- Developed proficiency in building responsive and user-friendly websites, while gaining hands-on experience with real-world projects.
- Continuously expanding knowledge in both front-end and backend development, with a strong foundation in web development tools and techniques.

## RELEVANT PROJECTS

### Portfolio

Nov,2024-Present

- Description:** Developed a dynamic and interactive personal portfolio website using ReactJS. Conducted research and prepared reports on various topics related to the company's operations and industry trends.
- Features:** Showcases projects, skills, and contact information with a responsive design and smooth navigation.
- Objective:** Built to demonstrate ReactJS skills and provide a professional platform to highlight my work.

### Calculator Application

Nov,2024-Nov,2024

- Description:** Developed a user-friendly calculator application using HTML, CSS, and JavaScript.
- Features:** Supports basic arithmetic operations (addition, subtraction, multiplication, division) with a responsive design.
- Objective:** Built to demonstrate front-end development skills and improve JavaScript proficiency.

### OLA CLONE WEBSITE

Sep,2024-Oct,2024

- Description:** Designed a static clone of the Ola homepage using HTML and CSS
- Features:** Replicated the layout, typography, and styling of the original website with a focus on responsive design.
- Objective:** Showcased proficiency in front-end development by implementing visually appealing and functional designs.
